Through community support, GSWO is able to support a limited number of teams for the robotics season. Team sponsorship is allocated on a first-come, first-serve basis until all available team slots have been filled or the deadline passes. Girl Scouts of Western Ohio will notify your team by **July 22, 2022** if you are fully funded. Each Girl Scout is required to make an investment of \$50 per girl with the submission of the team application and agreement to confirm their commitment to the season.

No previous experience is necessary. Training is available through First Lego League and their regional community partners. Girl Scout FLL Challenge teams are designated for girls in grades 4-8 (ages 9-14). There is a minimum of four Girl Scouts per FLL Challenge team (as set by Girl Scouts of Western Ohio regulation), and a maximum of ten Girl Scouts per FLL Challenge team. If you have an independent Girl Scout who is interested in participating, council may be able to pair her with a team who has not met their overall capacity of ten participants.
